

Marine Industry

BioShield® 75

EPA
Registered

USDA
Accepted

Stop mold, mildew, algae, fungi, and bacteria produced stains and discoloration in their tracks on your marine craft with one easy application of **BioShield® 75**. **BioShield® 75** offers long term microbiostatic inhibition against these destructive microbes with a highly durable, invisible coating which continues to protect after others have failed.

- Water based • EPA Registered • USDA Accepted on food contact surfaces • Odorless and colorless • Protects a wide range of surfaces • Highly durable • Non-toxic technology after drying • Prevents biofilm buildup • Long term prevention of a wide range of microbial growth
- Non-leaching, mechanical method of efficacy
- Can be wiped, sprayed, or misted on virtually any surface

- Decks
- Seat Cushions
- Galleys
- Bathrooms
- Cabins
- Carpeting
- Storage Compartments
- Furnishings
- Canvas Tops & Sails
