

# Real Estate Industry

# BioShield® 75

EPA  
Registered

USDA  
Accepted

Eliminate the bad odors that immediately squelch the sale of real estate properties with one easy application of **BioShield® 75**. The invisible microbiostatic coating provided by **BioShield® 75** inhibits the growth of unsightly mold, mildew, fungi, algae, and bacteria that cause odors, staining, and discoloration for extended periods of time. Microbial damage and foul odors will stop any real estate transaction. Let **BioShield® 75** come to your rescue.

- Water based • EPA Registered • USDA Accepted on food contact surfaces • Odorless and colorless • Protects a wide range of surfaces • Highly durable • Non-toxic technology after drying • Prevents biofilm buildup • Long term prevention of a wide range of microbial growth
  - Non-leaching, mechanical method of efficacy
  - Can be wiped, sprayed, or misted on virtually any surface
- Carpets
  - Bathrooms
  - Garages
  - Kitchens
  - Outdoor Furniture
  - Roofing
